Subject: RE: EPA-Sims conditional approval of Supplemental SSAP

Melisa,

Thank you for the heads up regarding the tentative schedule to start sampling on January 17th over a period of 9 days. That's coming up fast, so please let me know ASAP when the sampling schedule is confirmed.

Regards,
Juliet

Subject: RE: EPA conditional approval of Supplemental SSAP

Juliet

Thanks for your email. Sims acknowledges EPA's conditional approval of the Supplemental SSAP, and notes that any further sampling must be consistent with Sims' obligations under the Consent Decree and necessary to complete the characterization of metal impacts associated with Sims' operations. Pending evaluation of the results of the Supplemental SSAP, we believe it is premature to draw any conclusions regarding the need for further sampling.

As to the Sampling Schedule, the expectation is the sampling will take approximately 9 days and is tentatively scheduled to commence on January 17th. I will provide a more accurate schedule once fully confirmed but wanted to give you an estimate as quickly as possible.

If you have any questions or need further information at this time, please let me know.

Regards, Melisa

Subject: EPA conditional approval of Supplemental SSAP

Hello Melissa,

Attached is EPA's conditional approval of the Sims supplemental SSAP. You should get the official hard copy next week. I exchanged a couple phone calls with Peter Z. last week regarding the plan. We appreciate that Sims is willing to do the additional core samples, both laterally and deeper. In terms of the background grab samples, we mainly want assurance that Sims will take them at elevations reasonably equivalent to the grabs in the project area.

Let us know once you have a sampling schedule in mind so we can coordinate our efforts. Give me a call or email at any time.

Sincerely,
Juliet Hannafin
